Aerospace Robotics Market Report 2022 - Market Size, Trends, And Forecast To 2026

According to 'Aerospace Robotics Global Market Report 2022 – Market Size, Trends, And Global

Forecast 2022-2026' published by The Business Research Company, the [aerospace robotics market size](#) is expected to grow from \$3.12 billion in 2021 to \$3.47 billion in 2022 at a compound annual growth rate (CAGR) of 11.09%. The increasing commercial air traffic is expected to drive the aerospace robotics market during the forecast period.

Aerospace robotics offer high precision and performance in the construction of aircraft engines, drilling and painting airframes, precise fiber cutting and placement.

The aerospace robotics market consists of sales of aerospace robotics by entities (organizations, sole traders, and partnerships) that enhance the performance and productivity of predefined operations in the aerospace sector. Aerospace robotics are programmable machines that assist

humans in the construction of aircraft engines, performing tasks such as drilling and painting airframes, among others.

### Global [Aerospace Robotics Market Trends](#)

the aerospace robotics market are focusing on technological advancement to accelerate and develop robotics and process technologies for the next generation of energy-efficient aircrafts. The aerospace industry rapidly adopts novel technologies such as the integration of robotics with 3D visualization, Internet of Things (IoT), artificial intelligence (AI), and cloud computing solutions to enhance the performance and productivity of predefined operations in the aerospace sector.

### Global Aerospace Robotics Market Segments

The global aerospace robotics market is segmented:

- 1) By Type: Articulated, Cartesian, Other Types
- 2) By Application: Drilling, Welding, Painting, Inspection, Other Applications
- 3) By Technology: Conventional, Collaborative
- 4) By Component: Controller, Sensors, Drive, Arm Processor, End Effector
- 5) By Payload: Small-Medium Payloads Robots, Large Payloads Robots, Extra Large Payloads Robots

By Geography: The global aerospace robotics market analysis is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America accounts for the largest share.

Aerospace Robotics Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides aerospace robotics market overviews, analyzes and forecasts market size and growth for the global aerospace robotics market, aerospace robotics global market share, aerospace robotics global market segments and geographies, aerospace robotics global market forecast, aerospace robotics global market players, aerospace robotics global market leading competitor revenues, profiles and market shares. The aerospace robotics global market report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Aerospace Robotics Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Kuka Ag, Abb Group, Fanuc Corporation, Yaskawa Electric Corporation, Kawasaki Heavy Industries, Ltd, Apex Automation And Robotics, Nachi-Fujikoshi Corp., Stäubli, Omron Adept Technology, Inc., Mitsubishi Electric Corporation, Jh Robotics, Inc., M Torres, Comau, MTM Robotics and Honeybee Robotics.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.
