Decades of research and travel provide a new outlook on the life and journey of Jesus and Paul.

EINPresswire.com/ -- As we celebrate the birth of Jesus, there is no better time to come to a deeper understanding of the story of His life. Recent archeological discoveries and newly uncovered documents demand a fresh look at New Testament events. Based on such findings, Grumeza considers three possible identities of Jesus: was he simply like the rest of us, wholly human? Did he come from God his Father as a divine being, part of the Holy Trinity? Or could he have been a Star Child of mysterious genetic makeup who came to Earth with a spiritual message from a new god? Author and PH.D, Ion Grumeza, shines new light on Jesus' saga.

Ion Grumeza

“

If Jesus did not exist, he had to be invented, to unify humans under one God.”

Ion Grumeza

The findings in this book reveal Grumeza's thoughts on

- The timelines of Jesus and Paul's life and ministries
- Events and other occurrences from the New Testament, in relationship to the Roman calendar
- Complicated messages and parables in the New Testament

& more!

Author, Ion Grumeza says, “My intention is not to bring Jesus and Paul in front of the modern reader but to take the reader back to the time and places where Jesus and Paul lived, ministered, and converted countless people to the growing Christian movement. "JESUS WAS PAUL" represents the product of 28 years during my lifetime doing research in various places, taking documentation trips, and reading hundreds of books with similar religious, historical, and political subjects. I did all of this in order not to repeat what other authors have already written

about similar topics, especially about the lives and activities of Jesus, Paul, the apostles, and disciples, etc. I present something new and original about what may have occurred during early Christianity and Christology.” He believes if Jesus did not exist, he had to be invented, to unify humans under one God.
