

Bakers Yeast Market size is forecast to reach US\$3.2 billion by 2026 - IndustryARC

The increase in the adoption of active dry yeast as a leavening agent in bakery products is driving the Active Dry Yeast segment.

HYDERABAD, TELANGANA, INDIA,
December 26, 2022 /
EINPresswire.com/ -- IndustryARC, in its latest report, predicts that [Bakers Yeast Market](#) size is estimated to reach \$3.2 billion by 2026, growing at a CAGR of 6.1% during the forecast period 2021-

2026. Bakers Yeast belongs to the species *saccharomyces cerevisiae* and is the common name for the yeast strains that are widely used in bakery products as a leavening agent. These are single-cell microorganisms found around the human body. Bakers yeast is increasingly being adopted across the world in bakery products as it can be stored for longer periods at room temperatures without any loss of changes in its properties. The rise in the demand for bakers yeast for bioethanol production, growing adoption of inactive dry yeast for making malt beverages, increase in the awareness about the benefits of active dry yeast, and the growing investment by the key players to develop nutritional bakers yeast to enhance its applications as a leavening agent are the factors that are set to drive the growth of the Bakers Yeast Market for the period 2021-2026.
