

# Asia-Pacific Corrugated Board Packaging Market is Growing with the CAGR of 6.1% in the Forecast Period of 2022 to 2029

*The market is growing with the CAGR of 6.1% in the forecast period of 2022 to 2029 and expected to reach USD 153,222.26 million by 2029*

PUNE, MAHARASHTRA, INDIA,  
December 27, 2022 /

EINPresswire.com/ -- The [Asia-Pacific corrugated board packaging market](#) is expected to gain market growth in the forecast period of 2022 to 2029. Data Bridge Market Research analyses that the market is growing with the CAGR of 6.1% in the forecast period of 2022 to 2029 and expected to reach USD 153,222.26 million by 2029.

Growing small and medium-sized corrugated board packaging in the food and beverage packaging industry and increasing preferences for recycled corrugated products in the packaging industry. In order to fulfill the growing demand for corrugated board packaging products in The building and construction and electronics industry, some companies are expanding their production capacities by entering into acquisition, joint venture and launching products across different regions.

Corrugated board packaging products are designed to give an extreme protection to fragile, heavy, bulky, or high-value products in storage and transit. A corrugated board packaging with several layers provides strength to the packaging product and makes it stronger than average cardboard. Different types of liners are used in the corrugated cardboard to provide the strength such as kraft liners, test liners, and chip linear.

There are several types of corrugated board packaging such as single-phase, single-wall, double wallboard, triple wallboard, and others. Single-phase corrugated board packaging includes a single flute and one or two sheets of the liner board. Single wall corrugated board packaging involves one sheet of the corrugated medium glued and placed in between two sheets of the liner board.

Double wallboard refers to that type of corrugated board packaging consisting of two layers of the corrugated medium glued between three layers of the liner board. Triple wallboard refers to that type of corrugated board packaging, which is considered the strongest of all kinds of corrugated board packaging as it consists of three layers of the corrugated medium and the four-layer of the liner board.

Increasing purchases toward light weight corrugated boxes across industries are expected to boost the market growth however, stringent government regulations for packaging of products are expected to restrain the Asia-Pacific corrugated board packaging market. Rise in acquisition & collaboration between companies is expected to create opportunity for the market to grow but Lack of awareness about the sustainability of the packaging is causing a major challenge for the growth of the market.

#### [Asia-Pacific Corrugated Board Packaging Market Scope and Market Size](#)

On the basis of raw material, the Asia-Pacific corrugated board packaging market is segmented into linerboard and medium. In 2022, the linerboard segment is expected to dominate the Asia-Pacific corrugated board packaging market due to the easy processing techniques, improved efficiencies as well as easier usage. However, limited amount of strength restricts consumption in the market.
