size is forecast to reach

US\$437.1 million by 2027, after

growing at a CAGR of 3.7% during

2022-2027. Globally, the increasing

need for hood cleaners or kitchen

exhaust cleaners for eliminating the

already accumulated grease inside the ducts, hoods, fans, and vents of kitchen exhaust systems,

in the residential, and commercial sector is estimated to fuel the market over the forecast

period. Rising adoption of DIY activities in emerging economies has also raised the need for

baking soda, cleaning spray, and others, for hood cleaning. The expanding usage for water wash

hood detergent, hood filter cleaners, degreasing soap, and others, has driven the demand for

hood cleaners. Furthermore, the growing investments in commercial projects will further create

opportunities for the growth of the Hood Cleaners Market.
