

# With CAGR of 18.5%, Meditation Market, Share, Size, Worth USD 20,532.44 Million, During the Forecast Period 2029

## Meditation Market Industry Analysis and Forecast 2029

PUNE, MAHARASHTRA, INDIA,  
December 28, 2022 /  
EINPresswire.com/ --

A worldwide [Meditation Market](#) research report is a verified and reliable source of information that gives a telescopic view of the existing market trends, emerging products, situations, and opportunities that drives the business toward success.

This global market research report is organized by collecting market research data from different corners of the globe with an experienced team of language resources. The report serves the clients to tackle every strategic aspect including product development, product specification, exploring niche growth opportunities, application modelling, and new geographical markets. The universal market report also provides company profiles and contact information of the key market players in the key manufacturer's section.

Global meditation market is expected to gain significant growth in the forecast period of 2022 to 2029. Data Bridge Market Research analyses that the global meditation market is growing with a CAGR of 18.5% in the forecast period of 2022 to 2029 and is expected to reach USD 20,532.44 million by 2029 from USD 5,295.07 million in 2022. Rising healthcare expenditure and escalation in innovation and technologies are major drivers which are expected to the growth of the market in the forecast period.

Meditation can be defined as a set of techniques that are intended to encourage a heightened state of awareness, focused attention, and relieve stress. Meditation is also a consciousness-changing technique that has been shown to have a wide number of benefits on psychological well-being.

Meditation is a mind and body practice that has a long history of use for increasing calmness

and physical relaxation, improving psychological balance, coping with illness, and enhancing overall health and well-being. Many studies have been conducted to look at how meditation may be helpful for a variety of conditions, such as high blood pressure, certain psychological disorders, and pain. A number of studies also have helped researchers learn how meditation might work and how it affects the brain.

Guided meditations are an excellent tool for beginners, as they provide a focal point and gentle instruction to help you connect and let go of self-judgment.

A growing number of people are affected with by the mental disorders which demand highly effective and advanced treatment to reduce the number of patients affected with mental disorders. The healthcare systems need highly effective apps and programs to alleviate the mental conditions of patients. Therefore, the major market players are highly focusing on app launches and product approvals. The increase research & development investment for innovative apps development and growing awareness about meditation in people have accelerated the need for meditation apps. The rising prevalence of mental disorders along with surging volume of mental disorders is also propelling the growth of the market.

### [Global Meditation Market Scope and Market Size](#)

The global meditation market is segmented on the basis of product, meditation type, indication, type, age group, usage, information source, and end use. The growth among segments helps you analyze niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

On the basis of product, the global meditation market is segmented into apps, websites, books, online courses, yoga centers, meditation programs, workshops. In 2022, apps, websites, books, segment is expected to dominate the market as these are easily accessible and user-friendly for beginners.

On the basis of meditation type, the global meditation market is segmented into progressive relaxation/body scan meditation, mindfulness meditation, breath awareness meditation, spiritual meditation/ transcendental meditation, zen meditation, kundalini yoga, and metta meditation. In 2022, progressive relaxation/body scan meditation segment is expected to dominate the market because progressive relaxation yields a variety of benefits, including the development of a feeling of well-being, lowered blood pressure, decreased muscle tension, thereby reducing the body's need for oxygen and reducing fatigue and anxiety.

On the basis of indication, the global meditation market is segmented into mental condition

(stress/ anxiety disorders/mood disorders/depression) and physical condition (pain/insomnia/asthma/substance abuse/pregnancy). In 2022, mental condition segment is expected to dominate owing rising prevalence of mental disorders.

On the basis of type, the global meditation market is segmented into open monitoring, focused attention, self-transcending meditation. In 2022, open monitoring segment is expected to dominate owing to benefits it renders to the user such as stress relief, better thinking, increased emotional intelligence, and the ability to overcome mental biases.

On the basis of age group, the global meditation market is segmented into adult and children. In 2022, adult segment is expected to dominate the market because relatively adults are gravitating more towards meditation practices as it provides a sense of calm, peace, and balance that can benefit both emotional well-being and the overall health.

On the basis of usage, the global meditation market is segmented into individual and group. In 2022, individual segment expected to dominate the market because it allows one to choose for the variables of one's meditative practice: duration, space, and degree of silence.

On the basis of information source, the global meditation market is segmented into internet and books/newspaper/articles. In 2022, internet segment is expected to dominate the market owing to worldwide easy accessibility of the internet and the availability of plenty of information on the internet about different types of meditation.

On the basis of end use, the global meditation market is segmented into home setting, meditation centers, corporates/schools/colleges. In 2022, home setting segment is expected to dominate the market because of outbreak of coronavirus pandemic which restricted the outdoor movements and surging pool of mental disorders patients.

Research Methodology:

Data collection and base year analysis are done using data collection modules with large sample sizes. The stage includes obtaining market information or related data through various sources and strategies. It includes examining and planning all the data acquired from the past in advance. It likewise envelops the examination of information inconsistencies seen across different information sources. The market data is analysed and estimated using market statistical and coherent models. Also, market share analysis and key trend analysis are the major success factors in the market report. To know more, please request an analyst call or drop down your inquiry.

The key research methodology used by DBMR research team is data triangulation which involves data mining, analysis of the impact of data variables on the market and primary (industry expert) validation. Data models include Vendor Positioning Grid, Market Time Line Analysis, Market Overview and Guide, Company Positioning Grid, Patent Analysis, Pricing Analysis, Company Market Share Analysis, Standards of Measurement, Global versus Regional and Vendor Share Analysis. To know more about the research methodology, drop in an inquiry to speak to our industry experts.

About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability levels and advanced approaches. We are committed to uncovering the best consumer prospects and fostering useful knowledge for your company to succeed in the market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expanded its reach by opening a new office in the Gurugram location in the year 2018, where a team of highly qualified personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
