Rural Activities Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

As per The Business Research Company's "Rural Activities Global Market Report 2022", the [rural activities market](#) is predicted to reach a value of \$5.23

trillion in 2022 at a compound annual growth rate (CAGR) of 9.8%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The crop production market is expected to grow to \$7.42 trillion in 2026 at a CAGR of 9.1%.

Key Trends In The Rural Activities Market

Drone fishing technology is the new technique that has made fishing easier than the traditional methods. A drone is a flying robot and an unmanned small aircraft with a ground-based controller and a system of communication between the two. It is being used for fishing as it can pull single baits out to spots that a person cannot normally reach and move multiple baited

hooks to offshore locations. It is highly compatible and portable, requiring only one person to carry all the gear, and many remote controls have screens or LCDs for better viewing and fishing photography. For instance, Envirobotics, a New Zealand-based company, developed custom drones, especially for long-line fishing. The Splash Drone, developed in Florida, USA, is a waterproof fishing drone. Many other companies such as dronefishing.com, 3dr.com, and TanotisIndia are involved in drone manufacturing for fishing purposes, indicating an increase in the number of suppliers providing fishing drones and their usage.

[Overview Of The Rural Activities Market](#)

The rural activities market consists of sales of rural activities produced by entities (organizations, sole traders, and partnerships) that undertake rural activities such as forestry, logging, fishing, hunting, trapping, and other forestry services. Timber, fish, shellfish, and cotton are the main products produced through rural activities.
