

Electronic-Invoicing (e-invoicing) Market to Be worth USD 6,014.71 Million by 2029, Growing at Promising CAGR of 25.40%

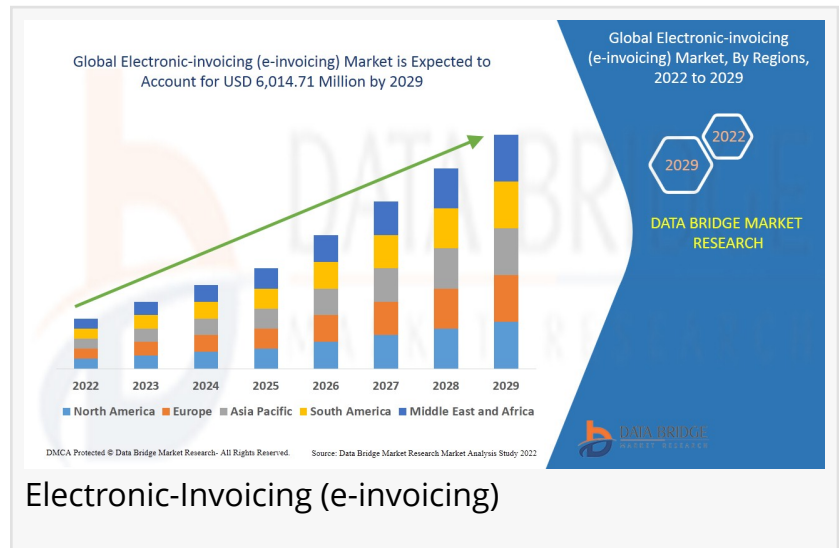

Data Bridge Market Research offers comprehensive insights and detailed research on the *Electronic-Invoicing (e-invoicing) Market Trends and Forecast to 2029*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, December 28, 2022

/EINPresswire.com/ -- Data Bridge Market Research analyses that the

[Electronic-Invoicing \(e-invoicing\) Market](#) will exhibit a CAGR of 25.40% for the forecast period of 2022-2029

and is expected to reach the market value of USD 6,014.71 million by 2029.

Significant growth in the e-commerce industry and increasing personal disposable income are some of the major factors accelerating the growth of the [Electronic-Invoicing \(e-invoicing\) Market](#) in the forecast period of 2022-2029. Furthermore, widespread adoption of advanced information technology (IT) solutions across the banking, financial services and insurance (BFSI), energy, telecommunications and retail industries is propelling the market growth. Various technological advancements, such as the development of web and software-based invoicing applications that can be integrated with the cloud, artificial intelligence (AI), internet of things (IoT) and predictive analytics tools, and product vendors offering flexible e-invoicing solutions to support the frequently changing operational patterns are also expected to drive the growth of the electronic-invoicing (e-invoicing) market in the forecast period of 2022-2029. However, the need of substantial amount of resources in terms of manpower restrains the growth of electronic-invoicing (e-invoicing) market. Also, requirement of time and equipment will challenge market growth in the above mentioned forecast period.
