2022”, the polymethyl methacrylate market is predicted to reach a value of \$5.05 billion in 2022 at a compound annual growth rate (CAGR) of 4.17%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, affecting many markets across the globe. The polymethyl methacrylate global market is expected to reach \$7.28 billion in 2026 at a CAGR of 9.55%. The increasing demand for polymethyl methacrylate (PMMA) in the electronic and automobile industries is contributing to the growth of the polymethyl

methacrylate market.

Key Trends In The Polymethyl Methacrylate Market

The development of bio-based PMMA is providing opportunities to expand and is a key trend gaining popularity in the market. Bio-based PMMA is supposed to be a substitute in medical devices due to its biocompatibility compared to others. The medical industry has a higher demand for bio-based PMMA. Companies are also increasingly working on introducing new bio-based PMMA. For instance, in November 2021, Arkema launched a new advanced bio-circular polyamide 11 medical polymer. This polyamide 11 contains castor beans, which do not directly involve the food chain and do not harm the forest. Increasing the use of a product like castor bean is expected to increase the demand for bio-based PMMA.

Overview Of The Polymethyl Methacrylate Market

The polymethyl methacrylate global market consists of sales of polymethyl methacrylate materials by entities (organizations, partnerships, and sole proprietors) that are used as a substitute for glass in products such as illuminated signs, skylights, shatterproof windows, and aircraft canopies. Polymethyl methacrylate is a synthetic polymer that is hardened at room temperature and has low strength and low toxicity. PMMA is used in various industries, such as automotives, electronics, construction, signs and displays, and sanitary ware.

Polymethyl Methacrylate Global Market Report 2022 from TBRC covers the following information:

Market Size Data

Forecast period: Historical and Future

By region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

By countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Market Segmentation

By Form: Extruded Sheet, Cast Acrylic Sheet, Pellets, Beads

By End User Industries: Buildings and Construction, Electrical and Electronics, Automotive and Transportation, Signs and Displays, Others (Medical, Furniture)

By Grade: General Purpose Grade, Optical Grade

By Geography: The polymethyl methacrylate global market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, North America holds the largest share in the market.

Major market players such as Arkema SA (France), Mitsubishi Rayon Co. Ltd. (Japan), Sumitomo Chemical Co. Ltd. (Japan), CHI MEI Corporation (Taiwan), Evonik Industries AG (Germany), Kolon Industries Inc. (South Korea)

Trends, Opportunities, Strategies And So Much More.

Polymethyl Methacrylate Global Market Report 2022 is one of The Business Research Company's comprehensive reports that provides in-depth polymethyl methacrylate market research. The market report analyzes polymethyl methacrylate market size, polymethyl methacrylate market growth drivers, [polymethyl methacrylate market segments](#), polymethyl methacrylate market major players, polymethyl methacrylate market growth across geographies, and polymethyl methacrylate market competitors' revenues and market positioning. The polymethyl methacrylate global market report enables you to gain insights on opportunities and strategies, as well as identify countries and segments with the highest growth potential.
