

Intetics Became a Member of ISA, the International Society of Automation

Intetics Became a Member of ISA, a Leading Global Association that Unites Industrial Automation Community through Standards and Knowledge Sharing

NAPLES, FLORIDA, UNITED STATES,
December 29, 2022 /

EINPresswire.com/ -- [Intetics](https://www.intetics.com) joined ISA, the International Society of Automation, a non-profit professional association of engineers, technicians, and managers engaged in industrial automation. ISA strives to advance technical competence by connecting the automation community and therefore build a better world through automation.

Intetics Became a Member of ISA, a Leading Global Association that Unites Industrial Automation Community through Standards and Knowledge Sharing

In the era of fast-moving business changes, companies require end-to-end advanced automated solutions to improve customer experience, boost productivity, and increase flexibility. With the increasing proliferation of Industrial IoT systems powered by AI/ML and cloud services for innovation and digital transformation, both state and private organizations should take action to implement, maintain, and secure those automation and control systems.

Associations like ISA help make it happen. The International Society of Automation develops widely used global standards, certifies professionals, hosts events, and provides networking and career development programs for its members worldwide.

The Senior membership in the association will allow Intetics to:

- Enter a network of automation professionals and engage with peers and subject matter experts around the world;
- Streamline the development processes by sharing & enriching best practices and participating in technical discussions on ISA Connect;

- Access over 150 standards that reflect the expertise of industry leaders in the automation industry;
- Extract knowledge and build connections through conferences, webinars, and online discussions organized by ISA.

Continuous digitalization and interconnectivity of industrial facilities are a must-have for businesses. If you want to capture value from Industrial IoT and other intelligent automation solutions but lack sufficient resources, then it's time to partner with a reliable service provider. Intetics' expertise in 17+ industries, predictive software engineering framework, and rich pool of certified talents target to provide safe & secure industrial [digital transformation for companies](#). Together, we can create the future of automation.

About Intetics
