

ALCOEATS BLENDS WARM AROMAS AND HEALTH BENEFITS IN ITS NEW NAMA TEA

Tea's the season to add the nutritious benefits and exotic flavors of Nama Tea, Detox Kahwa tea, perfect to complement every occasion and time of the day.

CHICAGO, ILLINOIS, UNITED STATES, January 3, 2023 /EINPresswire.com/ -- What better way to start the new year and withstand the first days of cold January than with a cozy cup of tea that warms the soul and brings peace and serenity while also cleansing the body. Once again, AlcoEats brings forward its unique signature, combining flavors and nutrition, and announces the latest addition to its line: Nama, Ayurvedic Detox Tea.

The delicious blend of Kahwa tea, crafted by the team of flavors experts at AlcoEats, is designed to help detoxify the body and provide a range of health benefits. Perfect to pair for an afternoon snack with the "Mi-Amore" sweet cashews or ideal to cozy up in the morning with a gratitude journal and a meditation ritual, Nama Tea adds a new AlcoEats healthy and delicious pantry must-have, always with clean and authentic natural ingredients to complement every occasion and every time of the day.

The Ayurvedic Detox Nama Tea is made with only the finest ingredients of a Kahwa tea, including green tea leaves and a blend of traditional Ayurvedic herbs such as ginger and saffron. This unique combination helps to stimulate the body's natural detoxification processes, aiding in removing toxins and impurities.

Used for centuries in many Central Asian countries, Kahwa tea is a traditional blend known for its help with digestion, metabolism support, immune health, and skin health. In addition, Nama Tea also provides a host of other health benefits. Rich in antioxidants, green tea leaves can help to protect the body from the harmful effects of free radicals by naturally cleansing the body of toxins. The spices in the blend add more anti-inflammatory properties, making it the perfect way
