

# New Small Business Grants 2023: WellCelerators LLC Announces the Launch of Business Funding Suite Dot Com

*Businessfundingsuite.com Exclusively Focuses on Grant Funding for Small Businesses*

SHERIDAN, WYOMING, UNITED STATES OF AMERICA, December 30, 2022 /EINPresswire.com/ -- Thomas Orths, CEO of WellCelerators LLC has just announced that with immediate effect the company offers an additional service for CEOs and CFOs. That service involves an eligibility check processed by a business funding expert to see whether or not the business might be entitled to small [business funding grants](#).

Federal Business Funding Grants

Thomas Orths highlights why this mission is so important. Most of the CEOs and CFOs are just not aware of all the grant opportunities out there. For the purpose of not missing out on valuable business funding grants WellCelerators LLC has just launched a new website <https://businessfundingsuite.com> where CEOs and CFOs may find valuable information regarding business funding grants.

“

When it comes to grant funding for business nothing is worse than a missed opportunity. Business grant funding can even be crucial for the future of a business.”

now take advantage of it.

There are rarely any limits on the number of grants for which a business can apply for, explains Thomas Orths. However, a company can only apply to each grant once per business. Sometimes, a program offers multiple grants per year. At times the rules and requirements to qualify

change. Most of the grant programs allow companies to submit applications multiple times, but a few do not.

A grant is one of the ways the government funds ideas and projects to provide public services and stimulate the economy. Grants support critical recovery initiatives, innovative research, and many other programs.

Although the federal government does not actively advertise its grants, some small business grants are given to business owners to start, grow and maintain their businesses, and grant recipients do not have to pay back the funding from the government. Therefore, it makes sense to look into small business grants as one potential source of funding.
