Carolina QuickCare is privately owned and operated, with their management team based in North Carolina. When asked about the name of their company, it was revealed that around 10 years ago, there was a group of clinics with the name "Carolina Quick Care" that was taken over by a group called FastMed. FastMed changed all those old clinics to their name years ago which allowed this new medical group to use the name for their clinics. Carolina QuickCare Family Practice and Urgent Care is a new company and has never been a part of FastMed.

No appointment is ever necessary at Carolina QuickCare, but patients can check-in online ahead of time if that option is preferred.
