CHICAGO, IL, UNITED STATES, January 4, 2023 /EINPresswire.com/ -- Artificial intelligence is changing the way we create and experience art, and now, [Artsi Gallery](#) is introducing the [Artsi Exclusives Collection](#), a debut selection of artificial intelligence (AI)-generated art.

With only one edition of each piece available, collectors have the chance to own a unique and one-of-a-kind piece of art history.

The Exclusives Collection features a diverse range of styles and subjects from AI creators around the world, and has been hand-curated by Artsi Gallery's team of curators. This first round of curation includes less than 200 pieces, making the Artsi Exclusives Collection a rare opportunity to acquire one-of-a-kind AI art.

“

The Artsi Exclusives Collection offers collectors the chance to own a truly one-of-a-kind piece of art – each piece will never be sold again. That means that once it's gone, it's gone for good.”

*Erica Nall, Artsi Founder*

"AI art is a revolutionary way of creating and experiencing art. The Artsi Exclusives Collection is more than a showcase of stunning artwork – it is a representation of what's to come in terms of technology and art," said Artsi Founder, Erica Nall. "Each piece symbolizes the dramatic shifts occurring in our world right now – an era of artistry

brought to life by the limitless possibilities of AI. Art lovers, collectors or anyone who appreciates innovation and creativity have the opportunity to own a piece of early era AI art that will become a timeless reminder of a moment in history."

The collection is available as a single edition, museum quality 24" x 24" canvas giclée print in rolled, stretched, or framed canvas. Each print comes with a certificate of authenticity and is shipped worldwide for free. And with a 100% refund policy, collectors can be confident in their purchase. Whether you're an art aficionado or a tech enthusiast, this collection has something for everyone.

Available pieces can be viewed and purchased by visiting the Artsi Gallery website.
