[retirement planning](#) that accounts for all phases of retirement, not just what a client's financial retirement number is.

"There are many aspects to retirement, not just what your nest egg goal is," says Shawn Maloney, Founder and President of Retire Wise. "While we will also determine that, there is more to it. We use proven finance strategies designed to meet your risk tolerance and stand up against market volatility."

"First and foremost, we analyze your situation to make personalized recommendations," Maloney continues. "Then, we put together a plan and guidance, which includes accumulation/savings plan and a retirement draw down plan based directly on your needs and goals. This phase is critical and, unfortunately, most do not account for it."

Part of the plan is also what else goes into your retirement happiness and wellbeing, beyond the finances. Ultimately, this equates to a customized plan just for you – not a boilerplate plan or robot crunching numbers. You're not just a number to us."

To develop a retirement plan to suit the individual and unique needs of all clients, Retire Wise offers a host of beneficial services, including:

- Retirement planning
- Complimentary Analysis
- Retirement Strategy
