Market Overview (2016-2026)

- Forecast CAGR (2021-2026): 6%

Over the past few years, the plumbing firms have been thriving, encouraging growth in the worldwide market for kitchen faucets. The preference for practical kitchens and bathrooms is also expected to increase, along with an esthetic appeal, to fuel the growth of the faucet industry. The growing use of modernised bathrooms and kitchens is expected to fuel demand.

Along with improving lifestyles, continually shifting consumer preferences have boosted the spending on luxurious homes and refurbishment, thus contributing to industry demand. Since it is easier to use and less expensive, clients also prefer the bar faucet.

Industry Definition and Major Segments

Faucets are appliances which are used in a plumbing system to control water flow. These faucets are often used in the kitchen, bathroom, and other areas where water is needed at regular intervals. To meet a variety of consumer desires, faucets are available in a wide range of styles, colours, and finishes.
