Trending Pain Management Devices And Therapies Market Trend

Companies in the pain management devices and therapies industry are focusing on the use of advanced technologies to cure chronic and acute pain without the use of any opioids (drugs). Special pain relief wearable devices are being developed by several companies that can be controlled manually or through a smartphone. These devices work by gathering neural pulses from the brain which triggers the release of the body's natural pain blocker. Thus, the devices electrically stimulate the nervous system and increase the body's resistance to pain. Companies such as NeuroMetrix, Sana, Oska wellness have introduced various types of wearable devices, ranging from a wearable mask, knee band, wrist band, etc. FDA has approved these devices as OTC (over-the-counter), which can be bought without a prescription.

Pain Management Devices And Therapies Market Segments

- By Type: Electrical Stimulators, Ablation Devices, Neurostimulators, Analgesic Pumps
- By Application: Neuropathic Pain, Cancer Pain, Facial & Migraine Pain, Musculoskeletal Pain, Trauma
- By Electrical Stimulation Devices: Transcutaneous Electrical Nerve Stimulation (TENS) Devices, Neuromuscular Electrical Stimulation (NMES/EMS) Devices, Combination Devices, Electrotherapy Devices, TNS
