Trending [Spinal Surgery Devices And Equipment Market Trend](#)

Implementing Nano-technology to improve the quality, precision, and speed of the work is the latest trend in the spinal surgery devices market. Nanoparticles possess unique chemical, biological and physical properties which enables them to perform a wide variety of cellular and subcellular tasks. Spinal pathology is a major field of study for nanotechnology. To fully implement Nano-technology, hospitals and clinics are waiting for FDA regulations and exploring options to reduce costs. Vallum Corporation, a medical device company announced that it received clearance from the American Food and Drug Administration (FDA) for its polyetheretherketone (PEEK) spinal fusion device which has a Nano textured surface.

### [Spinal Surgery Devices And Equipment Market Segments](#)

- By Product Type: Spine Biologics, Surgical Spinal Decompression, Vertebral Compression Fracture Treatment Products, Non-Fusion, Fusion
- By Application: Hospital, Ambulatory Service Centers, Orthopedic Centers
- By Type of Surgery: Open Surgeries, Minimally Invasive Surgeries
- By Geography: The global spinal surgery devices and equipment market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
