DOUGLAS, ISLE OF MAN, January 9, 2023 /EINPresswire.com/ -- High Potency API Market Analysis

The high potency API market is expected to grow at a CAGR of around 8% during the forecast period 2022-2029.

High Potency API Market Growth Drivers and Risks

As cancer remains one of the leading causes of death and morbidity worldwide, highly potent medicines and treatments, such as precision medicine and tailor-made treatments, are expected to increase treatment options. Among the side effects of chemotherapy are that it affects non-cancerous cells, so targeted therapy has gained popularity because it does not harm non-cancerous cells. HPAPI demand is likely to increase in the next few years because of this.
