DOUGLAS, ISLE OF MAN, January 10, 2023 /EINPresswire.com/ --
Craniofacial Devices And Equipment Market Analysis

With a compound annual growth rate (CAGR) of 7.8%, the global Craniofacial devices and equipment market is expected to grow from \$2.06 billion in 2022 to \$2.22 billion in 2023. It is expected that Craniofacial devices and equipment will grow from \$2.22 billion to \$2.84 billion by 2027.

A significant factor driving market growth is the growth of sports-related injuries. Among the most important factors driving the craniofacial devices market are increasing facial injuries caused by traffic accidents, assaults, violence, and motor vehicle accidents, a rise in patients and healthcare professionals requesting minimally invasive craniofacial surgery, and technological advancement in craniofacial devices.

Craniofacial Devices And Equipment Market Growth Drivers and Risks

Increased number of people suffering from cranial, maxillofacial injuries will drive the market growth in the coming years. The types of cases vary per country, and according to demographic factors such as age and socioeconomic status. In 2019, the prevalence of craniofacial
