The commercial real estate industry is known for being opaque, with limited access to accurate market data. With Terrydale Live, investors can access real-time Rates and Terms for a multitude of deal types and financing programs, as well as active on-market and off-market opportunities. "We are sourcing 100's of deals a week, which allows us to give our investors the most accurate and up-to-date information on the market," said Brian Gramlich, Co-Founder of Terrydale Live.

The platform also includes a lender matching feature that enables investors to enter key details and deal parameters to instantly narrow down a list of preferred lenders from the platform's

growing database of over 1500 options. Deals can be submitted electronically and tracked from acceptance to closing with dedicated support to keep clients up to date and resolve issues as soon as possible. Additionally, clients can use free resources like financial document templates and calculators.

"Our goal with Terrydale Live is to empower investors by giving them access to our real-time market data, as well as active on-market and off-market opportunities from TDC, which was previously unavailable to them," said Gregory Gali, Co-Founder of Terrydale Live. "Our innovative Live Quotes feature and commercial lender look-up will change the way commercial real estate is financed, and we're thrilled to bring it to market."
