

Rheumatoid Arthritis Treatment Market Growing at a CAGR of 5.7% to Reach US\$ 79.1 Bn by the end of 2033 | PMR Analysis

Growing Research in Novel Biologics and Rising Government Reimbursement on Drug Pricing will Propel the Overall Market for Rheumatoid Arthritis Treatment

NEW YORK, NEW YORK, UNITED STATES, January 11, 2023

/EINPresswire.com/ -- Rheumatoid arthritis (RA) is a chronic autoimmune disease that causes inflammation and damage to the joints and other tissues in the body. The symptoms of RA can vary widely, but typically include pain, stiffness, and swelling in the affected joints. RA is a progressive disease, meaning that it tends to get worse over time, and it can lead to severe disability if not treated effectively.

The global revenue from the rheumatoid arthritis treatment market stands at US\$ 42.9 Bn in 2022, with the global market expected to grow at a CAGR of 5.7% to reach a valuation of approximately US\$ 79.1 Bn by the end of 2033.

Geographically, the rheumatoid arthritis treatment market is segmented into North America, Europe, Asia Pacific, and Rest of the World. North America dominates the global rheumatoid arthritis treatment market, due to the presence of a large number of key players in the region and the high prevalence of RA in the United States and Canada. Europe and Asia Pacific are also major markets for rheumatoid arthritis treatment, due to the increase in the aging population and the growing awareness of the disease in these regions.

Key players in the global rheumatoid arthritis treatment market include AbbVie, Amgen, Pfizer, Roche, and Merck.

Overall, the global rheumatoid arthritis treatment market is expected to grow at a significant rate during the forecast period, due to the increasing aging population, a rise in the incidence of RA, and the growing awareness of the disease. With the continuous innovation of pharmaceutical technologies and the development of new drugs, the rheumatoid arthritis treatment market is expected to witness a significant growth in the coming years.

Competition Landscape

The main participants in the global market for rheumatoid arthritis treatment generally employ co-commercialization and distribution partnerships as marketing and distribution strategies. Throughout the anticipated period, the introduction of novel JAK inhibitors for rheumatoid arthritis will stimulate market growth.

Some key instances of development within the market include:

- Etanercept, a drug manufactured locally by Cipla that is prescribed to treat rheumatic disorders, was released in March 2018. The drug known by the brand name Etacept will be manufactured by Shanghai CP Guojian Pharmaceutical Co. in China and marketed by Cipla in

India according to the cooperation agreement.

- Avsola, a biosimilar version of the popular rheumatoid arthritis medicine Remicade manufactured by Johnson & Johnson, received approval from the U.S. Food and Drug Administration in December 2019.
