Trending Parathyroid Hormone Market Trend

Companies in the parathyroid hormone market are focusing on developing biosimilars of parathyroid-based drugs. A biosimilar is a biological product that is developed to be similar to an

already FDA-approved biologic, known as the reference product. Biosimilars potentially offer consumers the opportunity to reduce their health care costs without compromising on treatment standards, which is why parathyroid hormone manufacturing companies are investing in them.

[Parathyroid Hormone Market Segments](#)

- By Disease Type: Hypocalcaemia, Hypoparathyroidism
- By End-User: Hospitals, Clinics, Other End-Users
- By Product Type: Recombinant Parathyroid Hormone, Parathyroid Hormone Analogues

Parathyroid hormone refers to a substance produced by the parathyroid gland that aids in the body's storage and utilisation of calcium. High blood calcium levels are a result of parathyroid hormone levels that are greater than usual and could be a disease indicator. It is also known as PTH, parathyrin, and parathormone.
