

Penconazole Market to Reach US\$951.1 Million by 2027: IndustryARC

Increase in agricultural output across the globe and Surge in fruits & vegetable production and consumption boosting the growth of Penconazole Market.

HYDERABAD, TELANGANA, INDIA, January 11, 2023 /EINPresswire.com/ --

IndustryARC, in its latest report, predicts that [Penconazole Market](#) size is estimated to reach a value of US\$951.1 million by the end of 2027 after growing at a CAGR of 2.5% during 2022-2027. Penconazole is a triazole fungicide specifically used on fruits and

vegetables in order to control powdery mildew, rusts, ring spots, and scab. It mainly protects from the fungal pathogen such as deuteromycetes, basidiomycetes, and ascomycetes. According to the fungicide mobility study by National Library of Medicine, penconazole is considered as the least mobile fungicide while triadimefon exhibits the highest mobility. It hinders sterol biosynthesis in fungi and also encourages oxidative stress in rat cerebrum and cerebellum tissues. It is suitable to use across range of fruits and vegetables such as apple, grapes, pears, outdoor blackcurrant, plum, apricots, strawberry, cucumber, and leafy vegetables including others. Thus, high adoption of penconazole fungicide in range of fruits and vegetables is boosting the global market growth. The report offers a complete analysis of the market, its major segments, growth factors, trends, drivers and challengers, key players and more.
