Segment Analysis

The Miscellaneous Antivirals segment dominated the Antiviral Drug Market and is estimated to grow at a CAGR of 3.87% during the forecast period 2020-2025. The leading market share can be attributed to the fact that most of the drugs under this category are associated with the treatment of medical conditions like CMV Gastroenteritis, CMV Prophylaxis, CMV Retinitis, Hepatitis C, HIV Infection, and Influenza; as these conditions have high incidence rate in viral infections across the globe, it is anticipated to boost the Antiviral Drug Market in the forecast period.

2. On the basis of Disease Indications type, Human Immunodeficiency Virus held the major share of the market in terms of revenue in 2019. The reason behind the dominance is the rising incidence of HIV infections. However, the participation of WHO and the governmental bodies in the development of guidelines on HIV-preventive interventions and evaluation of HIV preventive capacity of drug treatment and services is to enhance the overall market of Antiviral Drugs in the forecast period 2020-2025.

3. North America dominated the Antiviral Drug Market with a share of 39%. The application of antiviral drugs has grown rapidly over the last few years. U.S. remains the largest consumer of antiviral drugs in the North America region, owing to the burgeoning cases of HIV Infections and increasing investments by governmental and non-governmental organizations for evaluation of HIV 8preventive capacity of drug treatment and services. However, the Europe region is estimated to grow at a fast CAGR during the forecast period 2020-2025 owing to an efficient reimbursement of healthcare policies and new launches which can be directly administered to boost the market in Europe.

Competitive Landscape:

The top 5 players in the Antiviral Drug Market Industry are -

1. Glaxo Smith Kline plc.
2. Merck & Co. Inc.
3. Bristol-Myers Squibb Company
4. Gilead Sciences
