has built a brand and identity which has few rivals.

“Listeners might feel excited when listening to my music. My music is made unique by the fact that I just make what I want to hear myself. If I don’t like a song, I won’t release it. If I do, I will,” says the artist.

## ABOUT

Atticus, better known by his musical identity Att!cus only recently started making music. The young artist began uploading for fun but soon realized that his music was resonating amidst audiences and began to grow a sizable fanbase. The Austin-based rapper Att! launched his first song in 2022, debuting with a flow reminiscent of other popular rappers such as Yeat and melodies which were evocative of the works of Young Thug.

Att!cus’ style is very distinctive in its sound. Everything from the way that his vocals are able to stand out against the music to the arrangement of his lyrics are unique, making certain elements like abrupt crescendos and high-pitched adlibs his trademark sound. Both of these elements were highlighted in his first album, “Too Much Talk”, which released in late 2022.
