Los aspectos más destacados del informe incluyen:

Visión general del mercado (2018-2028)

- CAGR para el período de pronóstico (2023-2028): 4,70%

Según las estimaciones de los analistas de IDE, el mercado latinoamericano de servicios de transformadores alcanzó un valor medio de 4,70 mil millones de dólares en el año 2022 con el aumento del uso de transformadores en el sector industrial y comercial. Además, también se prevé que el mercado objetivo se expanda de 2023 a 2028, impulsado por la creciente demanda de energía. Los esfuerzos constantes de los fabricantes para trabajar en las directrices de sostenibilidad proporcionadas por el gobierno y construir transformadores rentables están influyendo en el mercado a largo plazo con altas proyecciones de ingresos.

Además, la utilización de transformadores en unidades industriales y plantas de fabricación requiere un mantenimiento regular y servicios de revisión para que las operaciones en curso no se vean afectadas. Para producir soluciones energéticas más limpias y mejores servicios de calidad, las principales empresas del mercado objetivo están influyendo en sus patrones de gestión para obtener mejores revisiones de los servicios de transformadores.

Industry Definition and Major Segments

The maintenance, testing, and repairs required to extend the lifespan of transformers and ensure their continued operation make up the transformer services. Some of the essential transformer services for the long-life of assets include regular testing of insulation systems, inspection of auxiliary equipment, heat control management of electric motors and generators, and bushing insulations.

Based on type, the market can be segmented into:

- Testing and Monitoring
- Maintenance
- Others

On the basis of application, the market can be classified into:

- Distribution Transformers
- Power Transformers
- Others

Key regions covered include:

- Brazil
- Argentina
- Mexico
- Others

Market Trends

The Latin America transformer services market is poised to grow during the forecast period with the influence of the automotive, construction, and healthcare sectors. Further, the demand connotations of industrial sectors to produce clean energy and inculcate transformer services in hydro and solar power plants have resulted in accelerated supply chains that have led to this shift in market expectations. In order to maximise customer satisfaction and attract potential consumers, the major players in the target market are engaging in product development and innovative launch strategies by integrating new-age technologies with less carbon emission.

In all, variables like massive energy demand, technical innovations, upgrades in the field of electronics, and modifications in existing transformers are expected to drive the market for transformer services in the target region throughout that time. And the companies such as M&I Electric Brazil are shifting their production techniques and are integrating technologies to increase revenue generation in the Latin America region in long run.

Key Market Players

The major players in the market are:

- Transformatec
- EthosEnergy
- Transformadores CH S.A.
- Transgevi c.a.
- Grupo Comtrafo
- M&I Electric Brazil
- Others

The insights in the market research report provide growth possibilities, socio-political environment factors affecting the market, launches of products, new entrants dominating the market, and the presence of key companies driving the industry.
