Trending Solvent Based Coatings Market Trend

The adoption of PET technology is increasing as it enables the homogenous distribution of

mineral particles during painting. It is an acrylic polymer capable of encapsulating mineral pigments in the organic phase, which is a solvent phase. The main performance of the coatings comes from the bulk of the binder composition. However, additional polymer features such as crosslinking, oxidative or UV (Ultra Violet) curing, and specific morphology can boost overall performance, improving the dirt pick-up resistance in most cases. PET technology is being widely adopted by many customers and establishments to improve paint longevity and enhance resistance to climate variations and dirt from manmade and natural sources. Some of the major companies that have adopted this technology are Vermont Photo Inkjet, AkzoNobel N.V., Sherwin-Williams Company, and RPM International Inc.

Solvent Based Coatings Market Segments

By Type: One Component System Solvent Borne Coating, Two Component System Solvent Borne Coating

By Application: Automotive Solvent Borne Coatings, Industrial Solvent Borne Coatings, Printing Inks

By Industry Vertical: Utilities, Oil & Gas Industry, Manufacturing Industry, Hospitals, Other Industry Verticals

By Geography: The solvent based coatings global market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

The solvent based coatings global market consists of sales of farm machinery and equipment, and lawn and garden tractor and home lawn and garden equipment by entities (organizations, sole traders or partnerships) that produce agricultural implements, including combines, cotton ginning machinery, fertilizing machinery (farm-type), haying machines, milking machines, planting machines (farm-type) poultry brooders, feeders and waterers, power lawnmowers, snowblower and throwers (residential-type) tractors and attachments (lawn and garden-type and farm-type).

Solvent Based Coatings Global Market Report 2023 from TBRC covers the following information:

Market size data for the forecast period: Historical and Future

Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, Opportunities, Strategies And So Much More.

The Solvent Based Coatings Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides solvent based coatings market outlook, insights on solvent based coatings market size, drivers and solvent based coatings market trends, solvent based coatings market major players, competitors' revenues, market positioning, and solvent based coatings market growth across geographies. The solvent based coatings market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
