With the current acquisition of Europronet d.o.o. Adamant will have an immediate community (Retail and Business customer) to test and monetize before an official European launch.

Why use UpOne in our digital marketing strategy?

The company has a focus to fix one of the biggest problems in the world – providing financial services to the 2.5 billion people who are ‘unbanked’. Our vertically integrated app will be a one stop platform, that holds a wide variety of services to help accompany users in their day-to-day lives.

“My focus since founding the company almost a decade ago was to fill a gap within the fintech and telecom space. Taking Adamant to this next phase will be a crucial part of our business and will benefit shareholders tremendously as we plan on becoming the next globe player in the fintech space.” – CEO Andrea Pagani
