

Security Operations Center as a Service Market to Exhibit a Remarkable Growth of USD 14.06 Bn with CAGR of 13.28 By 2030

Rapid advancements in IT security and increasing remote working owing to COVID-19 are key factors driving market revenue growth

VANCOUVER, BC, CANADA, January 12, 2023 /EINPresswire.com/ -- The global [Security Operations Center \(SOC\) as a Service market](#) size was USD 5.55 Billion in 2021 and is expected to register a revenue CAGR of 16.52% during the forecast period, according to latest analysis by Emergen Research.

Increasing investment by major

companies is projected to support market revenue growth between 2021 and 2030. For instance, on 19 December 2022, the USD 1.3 billion Series C investment was headed by Fenbushi Capital U.S., according to an announcement by the Singapore-based Amber Group, a leading global provider of digital assets. Family offices and other investors with experience in cryptocurrencies

Market Size – USD 5.55 Billion in 2021, Market Growth – at a CAGR of 11.01%, Market Trends – Rising demand for SOC as a service from Asia Pacific”

Emergen Research

also participated in the most recent round. After receiving a USD 1.2 billion Series B+ investment earlier this year, Amber Group's Series C round represents the highest investment the company has ever received. The Amber Group has established itself as a significant player that is deliberately associated with financiers who have the same values and goals for the industry of digital assets.

An Emergen Research report of 250 pages features 194 tables, 189 charts, and graphics. Our new study is ideal for

anyone who wants to learn about the global Security Operations Center as a Service market commercially and deeply, as well as to analyze the market segments in depth. With the help of our recent study, you can analyze the entire regional and global market for Security Operations Center as a Service. To increase market share, you must obtain financial analysis of the entire

market and its segments. Our research suggests there are significant opportunities in this rapidly expanding market for energy storage technology. Look at how you might take advantage of these revenue-generating opportunities. Additionally, the research will help you develop growth strategies, strengthen competitor analysis, and improve business productivity by enabling you to make better strategic decisions.

Some Key Highlights From the Report

Small and medium enterprises segment is expected to register the largest revenue CAGR due to technology improvements and application evolution, organizational networks are growing over time. SOC as a service enables businesses to concentrate on their core competencies and use their most valuable assets for projects that are essential to their expansion.

IT and telecom segment is expected to register rapid revenue CAGR due to rising demand for SOC as a service to increase data security and backup. Security Information and Event Management (SIEM) systems are frequently included in the environments of IT industries to ingest and correlate alarms and logs produced by network devices, security devices, and endpoints, which is driving revenue growth of the segment.

Market in North America accounted for the largest revenue share in 2021 due to rising incidences of cyber-attacks. To prevent this, SOC as a service helps businesses improve their response efforts in the event of cyberattacks based on an assessment of their risk posture and preventative measures.

On 28 November 2022, to provide managed services in the region, Tata Communications International Pte Ltd., a prominent system integrator in the United Arab Emirates (UAE), expanded its cooperation with Intertec Systems. Tata Communications contributes its Cyber Security Operations Centre (SOC) and controlled security services as part of the cooperation to strengthen the cyber defense of businesses in the area. To secure the organization's mission-critical data, the SOC offers managed security services packaged with cyber-threat intelligence, providing top-notch data to assist and safeguard their business.
