Print-on-demand orders will create lucrative opportunities for leading vendors operating in the market as this helps in printing books that are of demand and that meet the exact needs of the market. Print-on-demand offers many advantages to the market and remains an important

option that overcomes risking investment over a big press run by allowing authors to offer a print book. The demand for the idea/book is tested using the print-on-demand option and also the investment that could have been spent on a press run for other crucial steps like cover design and editing is saved thereby saving costs of inventory management. African government is committed to using green technologies and innovative solutions to help protect our planet and print-on-demand is one among them. In August 2021, BookBaby, a leading self-publishing service provider based in the United States, is expanding production with a new investment in an HP Indigo 100K Digital Press, providing more digital printing firepower to accelerate its growth in the publishing market. HP Indigo digital presses have made it possible for individuals and small publishers to print one-of-a-kind books in an efficient manner, thereby supporting the modern Print on a Demand publishing model.
