Trending Argon Market Trend

Many chemical manufacturers are adopting IoT (Internet of Things) technologies to connect equipment and smart devices to garner real-time insights and locate gaps in the manufacturing process. The data obtained through these devices is processed, analyzed, and interpreted by plant managers and senior-level management to improve quality and achieve optimum production levels. For example, smart systems give information on the working condition and performance of chemical reactors with embedded software and analytics tools to notify plant operators and managers of possible machine breakdowns. Major industrial gas manufacturers adopting IoT technology include Praxair-Linde and Air Products.

Argon Market Segments

- By Phase: Liquid, Gas
- By Function: Cooling, Illumination, Illusion

• By End Userr: Metal manufacturing & fabrication, Chemicals, Energy, Healthcare, Electronics, Food & beverage, Other End-Users (includes scuba diving, automotive & transportation equipment)

• By Geography: The global Argon market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
