In this thirty-minute workshop, attendees will learn how to find questions potential patients are looking for the answers to and then how to quickly write the information. Keelie will cover the steps needed to outline a blog post and then write content that is easy to understand.

Attendees will be given different tools to use to find topics, titles, headlines, and resources to list within the content. Also, there will be resources shared that will help improve writing and reduce grammar mistakes.

Unlike most workshops, the hosts will cover the information quickly and then leave time at the end to answer specific questions. This value-based live event will help attendees walk away with real action points to start writing immediately.

To attend the workshop, [click this link](#) at 12pm EST on January 20th and be ready to learn.
