#### Key Insights:

A) As per the analysis shared by our research analyst, the Medical Cannabis (CBD) Packaging market is estimated to grow annually at a CAGR of around 11.7% over the forecast period (2022-2030).

B) In terms of revenue, the Medical Cannabis (CBD) Packaging market size was valued at around USD 992.21 Million in 2021 and is projected to reach USD 2,742.34 Million by 2030. Due to a variety of driving factors, the market is predicted to rise at a significant rate.

C) The use of advanced packaging options imposes an additional cost on the product's total price, which greatly hampers the market's growth. The use of plastics hampers the quality of the medicine over time, which also emerges as a restraining factor for the market's growth.

D) The huge number of benefits obtained from medical Cannabis (CBD) to manage the treatment of chronic diseases has emerged as a major opportunity for the market's growth, which also, in turn, supports the packaging industry. Cannabis (CBD) products act as a major pain reliever; hence, the demand for such products is increasing in the market.

E) Lack of awareness among the people regarding the health benefits obtained from using Cannabis (CBD) products has also challenged the packaging industry's growth. The total cost of the product increases along with the use of advanced packaging options, which greatly challenges the packaging industry's growth.

#### Regional Landscape

The region of North America has emerged as the largest sector for the medical Cannabis (CBD) packaging market due to the huge number of products demanded by this region. The process of legalization that has taken place in this region has helped to boost the sales and demand for cannabis products which enhances the growth of the packaging industry as well. Advanced packaging options available in this region, including glass and plastics, emerged as the major segments that have greatly boosted the market's size.

The European countries also have legalized cannabis products, which is a major driving force for the packaging industry. Restrictions imposed by the countries belonging to the Asia Pacific region have greatly hampered the market's growth to a great extent. The key market players are trying to spread awareness regarding the benefits of Cannabis (CBD) products which are helping the packaging industry boost its business.
