Trending Ethylene Market Trend

Ethylene-producing companies are investing in ways to develop bio-based green polyethylene compounds. These plastics are easy to produce, consume less energy, and offer the same versatility as chemically synthesized plastic. Following the trend, Braskem, a Brazil-based biopolymer producer, partnered with LEGO Group, a Danish toy production company, to supply it with I'm greenT polyethylene. I'm greenT polyethylene is a plastic made from sugarcane that is 100% recyclable and contributes to the reduction of greenhouse gases.
