## [Trending 3D Printed Implants Market Trend](#)

Many companies in this market are collaborating with various hospitals and rehabilitation centres to provide customizable devices for the specific needs of patients. These collaborations are aimed to be mutually beneficial for both, as the companies can use the network of the hospitals to promote their product and the hospitals would get customizable devices at their convenience. For example, In September 2022, the US Food and Drug Administration (FDA) announced a collaboration with Veterans Health Administration (VHA) to encourage innovation

in the 3D medical devices and implants. Similarly, in July 2022, Envista Holdings Corporation announced commercial partnership with dentalcorp Holdings to develop dental implants.

### 3D Printed Implants Market Segments

- By Application: Dental, Orthopedic, Cranio-maxillofacial
- 2) By End Users: Medical And Surgical Centers, Pharmaceutical Companies, Biotechnology Industry, Medical Institution
- 3) By Implantation Technology: Laser Beam Melting, Electronic Beam Melting, Droplet Deposition, Laminated Deposition, Two-photon Polymerization
- By Geography: The global 3D printed implants market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
