

In-Vehicle Infotainment Market Share Growing Rapidly with Recent Trends and Outlook By 2027 | CAGR of 9.8%

Growing demand for smartphone applications in automobiles and advances in technology for In-Vehicle Infotainment are driving the demand for the market.

VANCOUER, BC, CANADA, January 16, 2023 /EINPresswire.com/ -- The Global [In-vehicle infotainment Market](#) report presents comprehensive information covering insightful data for businesses and investors for the time period of 2021-2030. The report studies the historical data of the In-vehicle

infotainment market and offers valuable information about the key segments and sub-segments, revenue generation, demand and supply scenario, trends, and other vital aspects. The report offers an accurate forecast estimation of the In-vehicle infotainment industry based on the recent technological and research advancements. It also offers valuable data to assist the

“

In-Vehicle Infotainment Market Size – USD 25.51 billion in 2019, In-Vehicle Infotainment Market Growth - CAGR of 9.8%, In-Vehicle Infotainment Industry trends – Growing demand from the APAC region.”

Emergen Research

investors in formulating strategic business investment plans and capitalize on the emerging growth prospects in the In-vehicle infotainment market.

The global In-Vehicle Infotainment Market is expected to reach USD 52.76 Billion by 2027, according to a new report by Emergen Research. The growing emphasis on driver comfort and convenience has led to numerous In-Vehicle Infotainment systems being built that offer innovative features. Such features provide the driver with detailed vehicle knowledge and, as a result, improve safety and driving experience. Smartphones will significantly influence

the In-Vehicle Infotainment market, as they are the most important networking gateways used by an infotainment system.

The Global In-vehicle infotainment Market report provides full coverage of the companies' data, including details about their production and manufacturing capacity, product portfolio, business overview, revenue, gross profit margins, sales network and distribution channel, financial standing, and market position. The report also studies business strategies and strategic alliances undertaken by companies to gain a robust footing in the market. The report sheds light on the mergers and acquisitions, collaborations, joint ventures, brand promotions and product launches, agreements and partnerships, and corporate and government deals. The comprehensive analysis of the competitive landscape offers the readers a deeper understanding about the competitors.

The head-up display segment is projected to be the fastest-growing segment with a steady CAGR predicted over the forecast period. The head-up system is equipped with the latest augmented reality technology. It uses a combination of sensors, cameras, GPS, and Wi-Fi to provide information while driving, which creates a demand for the market.

Direct competition between OE fitted and aftermarket goods is anticipated to drive the In-Vehicle Infotainment industry because the former is based on quality, while the second is largely price-driven. In developing countries, demand for OE products is therefore expected to be high.

Due to the rising trend in the low costs of passenger cars, the passenger car segment is expected to rise at the highest CAGR over the forecast period. These cars are embedded with the latest advanced technologies that are expected to drive the in-vehicle infotainment system.

The Asia Pacific held the largest share in the in-vehicle infotainment market. The rise in disposable income and growing demand for a high-end and luxurious lifestyle in fostering the market demand in the region.

The report further offers a complete value chain analysis along with an analysis of the downstream buyers and upstream raw materials. The study focuses on global trends, regulatory frameworks, and macro- and micro-economic factors. The report also provides an extensive analysis of the segment and sub-segmented expected to dominate the market over the projected period. The report offers a forecast estimation of the market with regards to the analysis of the market segmentation, including product type, end-user industries, application spectrum, and other segments.

Report on the In-vehicle infotainment market:

The research report on the In-vehicle infotainment market is formulated through extensive primary and secondary research along with qualitative and quantitative analysis of vital aspects of the market. The insightful data is further validated and verified by the industry professionals. The report strives to offer deeper insights into the overall market scenario of the In-vehicle infotainment business sphere.

Revenue forecasts to 2030 for In-vehicle infotainment Market, 2022 to 2030 Market, with forecasts for include report segmentation and company size, each forecast at a global and regional level – discover the industry’s prospects, finding the most lucrative places for investments and revenues.

Revenue forecasts to 2030 for four regional and 20 key national markets – See forecasts for the In-vehicle infotainment Market, 2022 to 2030 market in North America, Europe, Asia-Pacific and LAMEA. Also forecasted is the market in the US, Canada, Mexico, Brazil, Germany, France, UK, Italy, China, India, Japan, and Australia among other prominent economies.

Prospects for established firms and those seeking to enter the market – including company profiles for 15 of the major companies involved in the In-vehicle infotainment Market, 2022 to 2030.
