“

Recognizing that systemic racism is the fabric of the American healthcare system, so we've created a NEW system focused on health equity and equality for black and brown people.”

*Pamgrace Gachenge, Founder
DiscoverU Health*

Launched in August of 2018 by first-generation Kenyan American Pamgrace [Gachenge](#), membership-based DiscoverU Health is a NURSE-led healthcare management firm that provides inclusive Concierge Medicine to Pediatrics and Adults designed to create a seamless, end-to-end experience and eliminates the inefficiencies afflicting today's healthcare system. In addition, DiscoverU Health specializes in “bringing care to you” by offering convenient virtual and home-based medical services and is working to build an inclusive network offering solutions to unlock healthcare's potential and improve the experience for members and their families.

Since becoming Executive [Director](#) in 2020, Gachenge has secured projected revenues of \$20 million, launched primary care services, and established primary care and acute care partnerships with Assisted Living, Skilled Nursing Facilities, and Rehabilitation Centers. In addition, Gachenge increased revenue by 10% in her first year with the new “Practitioners on

Call” program, providing the community with home-based primary care for the senior population.

DiscoverU Health is re-imagining healthcare NOW, changing the health narrative and experience for entrepreneurs and individuals. We understand that systemic racism is the fabric of the American healthcare system, so we've created a NEW system with health equity and equality for black and brown people while being a leading healthcare provider for entrepreneurs and individuals in the greater Washington, DC, metropolitan area.
