

# Payments Partnership Launched with Provincial Credit Union and Clearly Payments

VANCOUVER, BRITISH COLUMBIA, CANADA, January 16, 2023 /EINPresswire.com/ -- Provincial Credit Union, the leading credit union in Atlantic Canada, and Clearly Payments, an award-winning payment processor based in Canada, today announced a partnership to offer credit card processing and other merchant services to credit union members.

The partnership between the two institutions will offer innovative payment solutions for accepting credit cards online, at physical storefronts, in offices, and for mobile businesses. Along with payment technology, credit union members will get world-class customer service at some of the lowest costs in the industry.

Credit union members will be able to accept payments in a range of ways and access real-time transaction data. Clearly Payments offers all the hardware and software a business may need for eCommerce, recurring billing, physical point-of-sale, software integrations, credit card machines, and mobile payments.

“Provincial Credit Union’s use of Clearly Payments is a perfect example of a modern collaboration between a financial institution and a fintech company,” said Chris Farmer, CEO of Clearly Payments. “This partnership leverages the best of our companies to create a mutually beneficial relationship. We grow our customer base, Provincial Credit Union grows its relationship with its members, and our mutual customers grow their revenue through our award-winning payment processing services.”

“Clearly Payments’ technology and world-class support have made this joint partnership an easy decision,” said Jason Levy, Director of Business Services at Provincial Credit Union. “We wanted to find a reliable solution that offered our community-focused members a great payments service with low rates.”
