Key Takeaways:

This IndustryARC report on the Voice Over WLAN (VoWLAN) Market highlights the following areas

- Residential sector is analyzed to witness significant amount of growth, high penetration of IoT and growing number of smart-phone users are the key factors behind the growth.
- APAC is anticipated to witness the fastest growth due to the rising adoption IoT and growing

Market Research Reports, Business Consulting
Services & Analytics

investment for the development of wireless infrastructures.

- The market of VoWLAN is estimated to witness significant upsurge during the forecast period, owing to the growing adoption advanced smart-phones.

Segmental Analysis:

By End-User Industry:

The market is segmented into Residential, Healthcare, BFSI, IT and Telecommunication, Government and public sector, Retail, warehouses and e-commerce, General Manufacturing, Transportation and Logistics, Education, Hospitality and others, based on end-user industry.

By Application:

By application, the VoWLAN market is segmented into Unified Communication & Collaboration, Security & Emergency Alarm and others. Unified Communication application held the major VoWLAN market share, around 32.4%, in 2020 and it is also analyzed to grow at highest CAGR of 15.9% during the forecast period 2021-2026.

By Geography:

APAC region is estimated to witness the fastest market growth with a CAGR of 13.7% during the forecast period 2021-2026. Many Asian countries including China, Japan and India are investing heavily for the development of wireless infrastructure including WLAN.
