Legendary master distiller Felipe

Camarena is the creator of this ultra-premium tequila. G4 Tequilas are sustainably distilled using estate spring water and harvested rainwater. As 2023's most anticipated release, tequila aficionados are sure to enjoy this limited edition, 6-year Extra Añejo. Los Altos-cooked agave shines through along with an oak wood influence. After 6-years underground in old George Dickel whiskey barrels at the El Pandillo distillery, it is then bottled at barrel strength, 86 Proof.

“

As the fourth generation of Tequila producers, we meticulously supervise each step, beginning with the selection of our agaves and throughout the entire process, guaranteeing the highest quality.”

*Felipe Camarena, Master Distiller*

The tequila comes inside a one-of-a-kind, handcrafted Brazilian Parotta wood box. The boxes, handmade in Guadalajara, are emblazoned with the G4 logo and the third-generation master distiller Felipe Camarena's signature.

Inside the box, a gold plaque reads:

“Somos la cuarta generación de productores de Tequila, supervisamos personalmente cada paso, comenzando con

la selección de nuestros agaves y cuidando meticulosamente todo el proceso para garantizar la máxima calidad.”

Translated:

“We are the fourth generation of Tequila producers, and we personally supervise each step, beginning with the selection of our agaves and meticulously supervising the entire process to guarantee the highest possible quality.”

The tasting notes include floral and fruity, hints of spice, leather, tobacco, and citrus peel zest. Tequila lovers will enjoy vanilla with nutmeg and pepper for a touch of bitter sweetness on the long finish.

G4 Tequilas 6-Year Añejo retails for \$499.99 per bottle, with limited availability across the U.S.; only 1,000 bottles will be available.

#### About G4 Tequilas

G4 Tequilas are distilled at Destileria El Pandillo by Felipe Camarena and his sons, Luis, Felipe, and Alan. The Camarena family has been making the world's top tequilas in Los Altos de Jalisco since 1937, and Felipe and his sons are the fourth generation (G4) to carry on this heritage.

Felipe built El Pandillo to honor the family heritage and tradition while adding innovative and eco-forward-thinking elements to create the most sustainable distillery in Mexico. El Pandillo uses traditional tools like stone ovens and copper stills for their heritage and sustainability benefits. The distillery grows its agave on the property, and they harvest it and produce their tequilas using clean energy sources like solar, wind, and water.
