limitations, and factors likely to restrict the growth of the eDiscovery market. The report further discusses in detail the market in international waters and the emerging trends in those regions. It also offers insights into the competitive landscape, market drivers, industrial scenario, and the latest product and technological developments to offer a comprehensive overview of the eDiscovery market landscape.

The increased use of eDiscovery by municipalities and enterprises is responsible for the market's expansion. The eDiscovery market is anticipated to grow at a faster rate during the forecast period than traditional treatment procedures like thermal oxidation and chemical oxidation due to the reduced operational and capital costs of eDiscovery. The demand for eDiscovery is rising as more people are embracing biological treatment methods like aerobic activated sludge. The use of eDiscovery solutions is projected to increase in the near future due to rising restrictions on the discharge of treated effluents into freshwater bodies.

The eDiscovery research report also includes an insightful study of the prominent players of the industry along with their business overview, strategic planning, and business expansion plans adopted by them. This assists the readers and business owners in formulating strategic expansion and investment plans.

The key companies studied in the report are:

Everlaw Inc., IBM, KL Discovery Limited, Servient, CloudNine, Evichat, Deloitte, Microsoft Corporation, Nextpoint Inc., and ONE Discovery
