# Mext B2B Metaverse announces Semiconductor Day to explore the Trends and Innovations in 2023

We organize this livestream to bring together big players in the Semiconductor industry, and share on Semiconductor trends in 2023.

PARIS, ÎLE-DE-FRANCE, FRANCE, January 18, 2023 /EINPresswire.com/ -- Mext B2B Metaverse community organizes Semiconductor livestream events to bring together professionals, designers, engineers, innovators, influencers, addicts, manufacturers from across the Semiconductor ecosystem to explore technology trends and innovations in 2023 for Semiconductor.

Semiconductor Day

Semiconductor 2023 is a livestream day organized by Mext B2B Metaverse on January 25th, 2023, aiming to make Embedded Community stay updated and gain insights about the latest IPs, chips developments, packaging as well as chip manufacturing trends. In addition to exhibitors from established companies and startups driving innovations in the semiconductor and microelectronics sector, the agenda offers highly skilled speakers to share their knowledge about the market, disruptive technologies of the future and latest product trends as well as opportunities for matchmaking and networking.

" We are delighted to host the Semiconductor Livestream Day, which is our second event of 2023. This event in the Metaverse is a great opportunity for the public to learn, network and more..."

Hanene Maupas, CEO of Mext

In this conference, we will focus on getting the latest innovation and trends in Semiconductor development to help our high-tech community, to face its major new challenges for companies, build their roadmap and find their next partners. We will deep dive to Semiconductor Product Trends, Go to Market Trends, Technologies to support manufacturing.

Among the speakers, you will meet technology leaders of the Semiconductor industry as well as most recognized startups with disruptive technologies.
