One of the key features of Ubuntu SBS ERP is its comprehensive dashboard, which provides users with all the necessary information in one place, making it easy to manage staff details, HR tasks, pre-sales leads, and project management. Additionally, the system includes integrations with popular communication tools such as Slack, Zoom, Telegram, and Twilio, as well as a desktop application for tracking project activities and hours.

Another important feature of Ubuntu SBS ERP is its ability to manage invoices, payments, expenses, and credit notes, as well as inventory and customer/vendor reports. Businesses can also customize their settings and choose from a variety of payment gateways, including Stripe, PayPal, Paystack, Flutterwave, Razorpay, Paytm, Mollie, Skrill, Mercado Pago, CoinGate, Paymentwall.

Built with Laravel 8, Ubuntu SBS ERP is a powerful and flexible ERP solution that can be tailored to meet the specific needs of any small business or entrepreneur. With its user-friendly interface, businesses can easily set up and start using the system in no time, with minimal training

required.
