Trending Biostimulants Market Trend

Companies in the biostimulant market are coming up with innovative products to meet the demand and requirements of the customers and have an edge over their competitors. Mostly, start-ups are entering the market with new products. For example, in June 2022, a Spanish provider of biostimulation and sustainable crop nutrition introduced Biimore, an innovative biostimulant globally. It is made from specific and sustainable plant fermentation process from a combination of L-a amino acids, vitamins, sugars and traces of other natural compounds that are not found in any other biostimulant on the market. It improves yield and harvest quality parameters at ultra-low doses. In addition, in September 2022, Evonik Industries, a German specialty chemicals company commenced the development of an innovative biostimulant that reduces fertilizer use by half and keeps 93% of the yields. This is expected to be launched during

Biostimulants Global Market Report 2023 – Market
Size, Trends, And Global Forecast 2023-2027

2025-2027.

Biostimulants Market Segments

- By Chemical Origin: Natural, Biosynthetic Biostimulants
- By Active Ingredient: Humic Acid, Fulvic Acid, Amino Acids, Protein Hydrolysates, Seaweed Extracts, Other Active Ingredients
- By Application: Foliar, Soil, Seed, Other Applications
- By Geography: The global biostimulants market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East, and Africa.

<https://www.thebusinessresearchcompany.com/report/biostimulants-global-market-report>

Biostimulants are substances or microorganisms that enhance plant growth when applied in small amounts by increasing the nutrient absorbency rate of plants without any adverse effect on the plants. It improves plant tolerance to biotic stress while also increasing crop productivity.

Biostimulants Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Biostimulants Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights on biostimulants global market value, biostimulants drivers and biostimulants trends, biostimulants global market major players, competitors' revenues, biostimulants global market value, market positioning, and biostimulants global market growth across geographies. The biostimulants market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
