/EINPresswire.com/ -- On January 27, 2023, from 2-4 p.m., the Church of Scientology of Kansas City opens its doors to the community in a tribute to one of the most pivotal human rights leaders of our age, Dr. Martin Luther King Jr.

The program features a documentary of Dr. King's message and accomplishments, including personal stories of his impact and inspiration.

Human rights event at the Church of Scientology to honor Dr. King's dream of equity and peace.

Although Dr. King is best known for spearheading the civil rights movement, his dream encompassed a broader landscape. As he stated in accepting the Nobel Peace Prize in December 1964, "Sooner or later all the people of the world will have to discover a way to live together in peace, and thereby transform this pending cosmic elegy into a creative psalm of brotherhood. If this is to be achieved, man must evolve for all human conflict a method which rejects revenge, aggression and retaliation. The foundation of such a method is love."

Dr. King's dreams are still alive today, and many work to make human rights a reality in our time.

Bennette Seaman, Public Relations Officer of the [Church of Scientology Kansas City](#), will host the event and speak about solutions to human rights violations.
