“

PJX is the only event of its kind, providing a 360-degree offering in education and an invaluable opportunity to network with other key players in the market.”

Jonathan Young, CEO

“PJX is creating a great deal of excitement in the market,” said Jonathan Young, CEO at Sunstone Welders. “It’s the only event of its kind, providing a 360-degree offering in education, an invaluable opportunity to network with other key players in the market, and the chance to create relationships with important suppliers of chain, links, charms, findings, tools, services, and welders. For people serious about permanent jewelry, PJX is a must.”

Interest in permanent jewelry continues to grow month

after month with some statistics showing a growth rate of more than 923% over the past year based on Internet search rates. Sunstone Welders is the leading manufacturer of Orion permanent jewelry welders—necessary technology for permanent jewelry artists to provide the beautiful permanent jewelry people desire in a safe and professional manner.

Sunstone provides [everything PJ artists need to start a PJ business](#) or add to their current business. For a small investment of about \$2,500 to \$4,000 that includes an Orion mPulse welder, all tools, and training, artists can potentially make a five- to six-figure revenue stream. Permanent Jewelry makes a great business or side-hustle for women entrepreneurs. Artists can also access an assortment of precious metal chains from Sunstone to use in their new business.

Additionally, Sunstone will be showcasing local PJ artists in different locations across the United States and providing other marketing support to help artists start and grow their PJ business.

“The permanent jewelry consumer is attracted by the experience permanent jewelry provides,” said Young. “When consumers see what permanent jewelry is, what it can represent, everyone wants one. Consumers must see it and understand permanent jewelry first. By showcasing local artists, Sunstone is helping to create demand in the market.”
