Key Players Analysis- Halma plc; OMRON Corporation; AVECINNA; Koninklijke Philips N.V; General Electric Company; Core Health & Fitness, LLC; Peloton Interactive, Inc; Resideo Technologies, Inc; ergoline GmbH; and HealthCare International are among the leading companies operating in the cardiac rehabilitation market.

Based on application, the cardiac rehabilitation market is segmented into angioplasty, coronary artery disease, cardiomyopathy, cholesterol management, diabetes, and lung transplant. The angioplasty segment held the largest market share in 2020 and is expected to retain its dominance during the forecast period. The increasing number of angioplasties is contributing to the market growth for this segment. For instance, as per the AHA 2019 Heart Disease and Stroke Statistics, around 480,000 patients underwent percutaneous coronary intervention (PCI) in the US in 2014.
