

TaoLabs launches ACF (Alien Chicken Farm), the first Play-Learn-Earn Web3 Game on the Solana Blockchain

"ACF is more than just a game, it's a gateway to the future of digital ownership."

ASIA, January 24, 2023

/EINPresswire.com/ -- [TaoLabs](https://taolabs.com/) is excited to announce the launch of [ACF](#) Game, the hottest Web3 game on the Solana blockchain. [Alien Chicken Farm](#) (ACF) is a play-and-learn-and-earn game designed to help millions of first-time users learn, experience, and own digital assets on the blockchain in the most affordable and frictionless manner.

Alien Chicken Farm (ACF), Web3 Game by TaoLabs

Alien Chicken Farm (ACF) is the world's simplest and most affordable Play-Learn-Earn Game (Mobile and Web) on the blockchain. ACF is built as a fun and educational way to introduce first-time users to the world of the blockchain ("ownership internet") in the simplest gameplay possible. We believe that provenance and ownership are key innovations of the Web3 internet, and there is no better way to understand it than to actually own assets on the blockchain.

“

"We are excited to bring this revolutionary game to the market and empower users to learn, experience, and own digital assets in a fun and engaging way," said TaoLabs."

TaoLabs

The gameplay of ACF is simple - players build and manage a farm, breeding alien chickens with a classic town space real-time-strategy (RTS) format. Players purchase Two Alien Chicken NFTs from the ACF marketplace and some \$ACF tokens. They can then grow their farm by breeding

chickens and/or buying more Alien Chicken NFTs. Players can earn by selling their newly bred chickens on the ACF marketplace or culling their old chickens for \$FEED tokens.

Alien Chicken Farm (ACF) is more than just another game that randomly incorporates cryptocurrency. It has a full suite of in-game assets and their version of "Play-to-(L)earn". The

game takes less than 2 minutes per day to play and the floor price is just flat 0.5 SOL for all 1st generation NFTs, staying true to the mission of helping people play and (l)earn in the simplest possible way.

ACF Game is live now in public beta on mobile (Android) and the web (Chrome). Players can start playing now by visiting the ACF Game website. As the team puts it, the best part is “there’s no hopium involved - the game is live now.” Alien Chicken Farm is a product of TaoLabs, a thesis-driven blockchain company.

“We are excited to bring this revolutionary game to the market and empower users to learn, experience, and own digital assets in a fun and engaging way,” said TaoLabs. “ACF is more than just a game, it’s a gateway to the future of digital ownership.”
