## Key Takeaways:

This IndustryARC report on the Thermal Scanner Market highlights the following areas –

- North America has dominated the thermal Scanner market owing to early adoption of advanced technologies and high investments in adopting them.
- Growing demand for thermographic cameras for building inspection, law enforcement, data center monitoring and other application have been fueling the market growth.
- Increasing adoption of detection equipment such as fixed thermal and infrared scanners at commercial places such as airports, malls, and other crowd places is driving the market growth.
- High cost and scarcity of equipment is the major challenge for the consumers of thermal

scanners.

### Segmental Analysis:

#### By Technology:

Uncooled technology of thermal scanners has high share owing its benefits such as better penetration in weak environmental conditions and can be activated and operated quickly. This technology is cost effective when compared to cooled technology, and have much longer service as they continuously work without maintenance, thereby increasing the demand for thermal scanners.

#### By Industry Vertical:

Commercial and Transportation sector is the fastest growing industry in thermal Scanner market and estimated to grow at a CAGR of 11.26%. With the outbreak of global pandemic disease corona virus, there has been high adoption of thermal scanners at various airports. Growing awareness of the safety of the people, it is expected that there would be increase in adoption of commercial complexes such as malls, theatres, business places and corporate offices.

#### By Geography:

As the North American countries such as the U.S. and Canada are the early adoption of advanced technologies, there is huge adoption of Thermal Scanner which is set to drive the market. From February 2020 onwards, many companies in the U.S. such as Intel Corporation, Tyson Foods Inc and many others have started implementing thermal scanners in order to ensure their workers not entering into the factories with the potential illness due to the pandemic disease covid-19. U.S. Companies such as FLIR Systems and other companies has caused a sales spike with tripling quarterly revenue in small span of time as they had in more than five years.

### Competitive Landscape:

The top Key players in the Thermal Scanner Industry are -

1. Fluke Corporation
2. Leonardo S.p.A.
3. FLIR Systems
4. L3 Harris Technologies Inc
5. Optotherm Inc

6. Seek Thermal
7. Thermoteknix Systems Ltd
8. 3M
9. Opgal
